

OPERATIONS MANUAL
SECTION: Account Servicing
SUBJECT: Address/Phone Changes

Date: 08-2013
Replaces:
05-2008

OVERVIEW:

Maintaining current and correct addresses and phones for our clients is critical for internal control and customer service. The following procedures must be followed to ensure addresses and phones are changed appropriately.

PROCEDURES:

Address/phone changes must be performed only after appropriately identifying the client via photo identification, or in the event that the request is made via telephone, secondary level identification. Refer to the Identification policy in the Operations Manual for complete secondary level identification procedures. The Address/Phone Change Form must be completed and filed in the branch daily work. When completing the Address/Phone Change Form the customer must provide you with the current (on file) address/phone. Verify the address/phone provided by the customer against the record in IBS Insight prior to performing the address change.

Address/Phone Change Forms must be retained by the Branch or Solutions Center. Management is responsible for ensuring that all phone changes appearing on the Master Data Change report and all addresses appearing on the Customer Address Change report are verified back to an Address/Phone Change Form outlined in the Operations Manual Daily Report Review policy.

Address changes must be performed in IBS Insight, as follows:

1. Select, Customer, Name and Address, Change Current
2. Enter search criteria (name or account number)
3. In the Change Options Field, select Customer and All Accounts
4. Select NEXT
5. On the following screen, insert the new name, address, and contact information.
6. Ensure the box Save Current Address for History is selected
7. Select APPLY
8. If the client is changing the address that their debit card is mailed to, add a note to their debit card record in CMSe with the date that the address was changed and your initials.

Please note the following:

The Customer and All Accounts option allows an address to be changed in one step for the customer record and all accounts in which the customer is an owner.

Please be aware that if you are changing the address of a joint account, in which the individual you are changing is the secondary, you must determine if the primary has other accounts set up as a sole-owner relationship and determine if you need to change these accounts also. Failure to do so will result in only the joint account addresses being changed.

Important: All address changes require an automated notice to be mailed to the old and new address verifying the address change and the accounts that were changed. For address corrections due to bank error only, you may suppress the mailing of the automated notice as follows:

OPERATIONS MANUAL
SECTION: Account Servicing
SUBJECT: Address/Phone Changes

05-2008

1. Select, Customer, Name and Address, Change Current
2. Enter search criteria (name or account number)
3. In the Change Options Field, select Customer and Review Accounts Selected Below
4. Select NEXT
5. On the following screen, correct the name and address at the client level.
6. Select Apply
7. On the following screens, correct the name and address of each account, being careful to uncheck the "Generate Address Change" notice
8. Select APPLY

If a client contacts us and indicates they received an automated notice, but did not change their address, contact the Operations Department immediately.

Physical Address Requirements:

The USA Patriot requires that the customer-level record contain a physical address. If a client would like mail to go to a PO Box, you must change only the account level records:

1. Select, Customer, Name and Address, Change Current
2. Enter search criteria (name or account number)
3. In the Change Options Field, select Review Accounts Selected Below
4. Select appropriate accounts to change
5. Select NEXT
6. On the following screen, insert the new name, address, and contact information.
7. Ensure the box Save Current Address for History is selected
8. Select APPLY

Additional Servicing Options:

If a client requests to change their address for a future date perform the following:

1. Select, Customer, Name and Address, Add Future
2. Enter search criteria (name or account number)
3. Select the appropriate Change option based on the accounts that will be changed. Refer to note above regarding secondary accounts.
4. Enter an effective date
5. Select NEXT
6. On the following screen, insert the new name, address, and contact information.
7. Select APPLY
