Sound Community Bank Continuity Plan

7/23/2010

Report Description:

This report describes the plan's purpose, objectives, assumptions and strategies on which the plan is based.

Business Function	Operations/Administration
Plan Summary	Sound Community Bank plays a crucial role in the communities we serve and with the clients who do business with us. In the event of a disaster, it is our goal to restore services as quickly as possible. It is the policy of Sound Community Bank ("the bank") to implement appropriate plans for regaining full functionality as rapidly as practicable after the occurrence of any disabling event, whether caused by natural, technical or human factors (including acts of terrorism). The plan's primary focus will be the deposit operations of the bank with emphasis on other departments in proportion to each department's role in the bank's operation. The bank's EVP/CFO is responsible for ensuring appropriate formation and testing of the Business Continuity Plan. The EVP/CFO will also be responsible for communicating the Plan with the Board of Directors. The bank's CEO, EVP/CFO or VP of Information Technology can declare a disaster and approve implementation of the Business Continuity Plan. The plan will be reviewed annually and updated when significant processes and services are changed.
Purpose	The primary focus of the bank will be the location and safety of all bank personnel, then recovery of operations, with an emphasis on deposit operations of the bank and an emphasis on other departments in proportion to each department's role in the bank's operation.

Sound Community Bank Continuity Plan

7/23/2010

Scope Types of Disasters:

Sound Community Bank will identify and evaluate the potential for the natural and man-made disasters which could result in the partial or complete interruption of banking services to our clients and customers.

Risk Assessment:

Sound Community Bank will assess the potential for impact on each aspect of the bank's business, customers and employees on an annual basis. It is the policy of Sound Community Bank to identify critical products, services and operations and internal resources and capabilities and determine the impact caused by each type of disaster. Any disaster has the potential to interrupt the bank's business in different but nonetheless substantial ways. The Bank will create a plan for communication, maintenance of operation, and communication with employees that is applicable to all types of disasters that could impact the bank's functions.

Allocation of Resources Prior to any Disaster:

The Bank authorizes the necessary resources to have in place the personnel, resources, planning, training and education to minimize any and all business interruption caused by any disaster prior to the occurrence. All employees will receive training but key employees, will be responsible for placing in action any disaster preparations or post-disaster recovery operations. Current resources for maintaining communication with employees and customers will be evaluated and substituted, if necessary, to accommodate the needs of the bank, its customers and employees in times of disaster to facilitate limited interruption.

Training and Policies and Procedures:

Training is conducted annually to ensure bank personnel understand procedures and implementation of the Bank's disaster recovery plans. Simulated scenarios training may be used to prepare bank personnel.

Community Resources:

The CEO, or designee, will communicate with the local community and implement any city, county or state disaster implementation and preparedness plans in order to effectively supplement the bank's own policy and procedures. The bank's plan will encompass any community plans so that the bank plan does not conflict with any local or state planning or recovery operations.

Post-Disaster Recovery:

Sound Community Bank plans are designated to regain full functionality as rapidly as practicable after the occurrence of any disabling event. In the case of major or large scale disasters, as determined by local, state or federal governments, the bank will monitor community recovery progress so that the bank can comply with community recovery efforts. The bank will also institute procedures in the event a major disaster causes bank operations to be interrupted for extended periods of time exceeding one week, or permanent facility closure.

Sound Community Bank Continuity Plan

7/23/2010

Strategies Used	Sound Community Bank will employ a variety of methods that will assist in the execution of this plan. Authorized persons will make use of telephone, cell phone, text message, internet, email and face to face dialogue to initiate response. Authorized persons will also ensure the most effective means of communication are utilized. The CEO, CFO, VP/IT and VP/Operations have global authorization to declare a disaster or emergency and will the key to plan activation and execution via the above stated means.
Activation Criteria	The criteria for activation includes, but is by no means limited to, any natural disaster, any human threat, terrorism, data/information loss or breach, critical communication failure or core system failure.
Activation Procedure	The following procedure is designed to be generally followed by those parties authorized to declare a disaster or the like. Those employees with global authorization will act as whistleblowers. This includes Laurie Stewart, Matt Deines and David Haines. 1. Declaration of emergency state of disaster. 2. Identification of the scope of the disaster or emergency. 3. Assessment of of disaster or emergency. 4. Assignments of teams and responsibilities contingent on disaster or emergency type. 5. Internal communication with those persons/teams. 6. Enact continuity plan towards state of recovery.
Maintenance Requirements Schedule	Sound Community Bank will employ a quarterly update of its continuity plan to ensure plan maintenance is regular and the continuity plan stays current. The Board of Directors have the ability to approve and review plan sections as necessary and make the compulsory changes. This includes the addition of new employees and updated contact lists.
Maintenance Unscheduled Event	In the event of a major event that would necessitate plan changes, the continuity plan will be updated on an as-needed basis. This may include new branch openings as well as branch closures, new threats or critical items, executive terminations and general bank-wide changes.
Testing Requirements Schedule	Sound Community Bank will require a quarterly "confidence testing" of the continuity plan which will include a disaster or emergency scenario drill in congress with the continuity plan. This quarterly testing will ensure plan details are accurate and effective as well as ensure Sound Community Bank is prepared for a disaster or emergency scenario.
Testing Unscheduled Event	Unscheduled plan testing will occur when an employee with global authorization realizes the need to plan for a new risk, threat or "hot" topic addition. This will ensure new, previously unplanned scenarios are enclosed within the plan.

July 23, 2010

Board of Directors:

The following information is intended to serve as the report of the disaster recovery plan.

The plan has been developed to meet and/or exceed the standards set forth by the Federal Financial Institutions Examination Council (FFIEC) in their pronouncement known as the "Interagency Policy on Contingency Planning".

This pronouncement emphasizes the need for a comprehensive disaster recovery plan document, consisting of recovery processes relating to the restoration of critical functions that may be disrupted by a disaster.

The disaster recovery plan document drafted is comprehensive in nature, and consists of the following:

Employees - 16	Software - 8
Locations - 8	Vendors - 16
Recovery Processes - 7	Vital Records - 21
Equipment - 25	Telecom - 7

Employee Lists were reviewed and updated to reflect additions and changes in personnel and positions.

Facility Layouts were adjusted to reflect changes in the location of critical devices, file cabinets, etc.

Equipment Lists have been updated to reflect additions and changes in the location of critical devices, file cabinets, etc.

Vendor Lists have been updated to take into consideration additions and deletions to financial institution service providers and material suppliers.

Information Systems were reviewed, noted, and changes and additions were made.

Policy and Procedure within the individual team leader duties documents were adjusted to reflect changes to disaster recovery plan team leaders, service providers, information systems technical support, etc.

Plan Maintenances should be conducted at least annually, or as changes occur within any functional area.

Date of Board Approval

7/23/2010

Report Description:

This report lists identified risks by category.

Criticality Rating: 1 (Most critical), 5 (Least critical). Probability of Occurrence: Low = Very unlikely to occur, Medium = Moderate chance of occurrence, High = Very high possibility of occurrence. Speed of Onset: Gradual = Occurs slowly, Sudden = Occurs very quickly.

Duration of Outage: Short = 24 hours or less, Intermediate = 1 to 3 days, Long = Longer than 3 days.

Category - Human Threats**Bomb Threat (RT1)**

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Intermediate
Critical Rating	3

Burglary/Robbery (RT2)

Probability	Medium
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Intermediate
Critical Rating	2

Improper Handling of Sensitive Data (RT8)

Probability	Low
Speed of Onset	Sudden
Duration of Outage	Short
Critical Rating	4

Riots/Civil Disturbances (RT11)

Probability	Low
Speed of Onset	Gradual
Forewarning	Yes
Duration of Outage	Short
Critical Rating	4

Terrorism (RT12)

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Long
Critical Rating	2

7/23/2010

Unauthorized Access to Data/Theft of Data (RT13)

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Short
Critical Rating	2

Unauthorized Modification of Software/Hardware (RT14)

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Short
Critical Rating	2

Work Stoppage - Internal/External (RT17)

Probability	Low
Speed of Onset	Gradual
Forewarning	No
Duration of Outage	Short
Critical Rating	3

Category - Natural Threats

External Fire (RT18)

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Intermediate
Critical Rating	3

External Flooding (RT19)

Probability	Low
Speed of Onset	Gradual
Forewarning	Yes
Duration of Outage	Intermediate
Critical Rating	2

Internal Fire (RT20)

Probability	Low
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Long
Critical Rating	1

Internal Flooding (RT21)

Probability	Low
Speed of Onset	Gradual
Forewarning	No
Duration of Outage	Long
Critical Rating	1

Pandemic (RT22)

Probability	Low
Speed of Onset	Gradual
Forewarning	Yes
Duration of Outage	Long
Critical Rating	2

Seismic Damage (RT23)

Probability	Medium
Speed of Onset	Sudden
Duration of Outage	Intermediate
Critical Rating	1

Snow or Ice Storm (RT24)

Probability	Medium
Speed of Onset	Gradual
Duration of Outage	Short
Critical Rating	3

Category - Technical Threats

Communication Failure (RT26)

Probability	Medium
Speed of Onset	Sudden
Forewarning	No
Duration of Outage	Short
Critical Rating	1

Failure of System Software (RT28)

Probability	Low
Speed of Onset	Sudden
Duration of Outage	Short
Critical Rating	1

7/23/2010

Report Description:

This report shows how people are organized to execute their plan (e.g. Teams, Positions on Teams, and people assigned to fill each position). Includes employees and vendor representatives.

People key: (E) = Employee, (V) = Vendor Representative

Team - Accounting**Role - Accountant**

Prepares and completes accounting reports, oversees general ledger accounts, corrects erroneous general ledger entries, handles wire transfers with correspondent banks, controls the fixed asset function, prepares board and regulatory reports, coordinates interdepartmental allocations of profit and cost centers, and assists with profit center reporting.

Liulamaga, Naza (E) - AVP / Accounting Manager

Work Phone x x 307

Cell Phone 206-290-9490

Role - Accounting Clerk

Performs a variety of operational and clerical duties to assist in the preparation of management reports. Typical work performed includes processing accounts payable disbursements, reconciling correspondent bank statements, reconciling official checks to periodic statements, reconciling interoffice and other clearing accounts, and filing and maintaining accounting records.

Liulamaga, Naza (E) - AVP / Accounting Manager

Work Phone x x 307

Cell Phone 206-290-9490

Role - Accounting Officer

Responsible for a number of duties which require extensive knowledge of department operations, technical procedures and computers. Typical work performed includes reconciling correspondent bank statements, assisting in the preparation of the budget, assisting with planning and training, distributing general ledger income and expense accounts, allocating income and expense among the various departments, assisting with federal, state and local tax preparation, and preparing management reports.

No People are assigned to this Role.

Role - Accounting Team Leader

Typically is responsible for the restoration activities for the accounting area. Confers regularly with the Plan Administrator to report on recovery efforts and to receive guidance relative to contingency processing needs.

Liulamaga, Naza (E) - AVP / Accounting Manager

Work Phone x x 307

Cell Phone 206-290-9490

Sound Community Bank Continuity Plan

7/23/2010

Team - Community Banking

Branch recovery

Role - Branch Manager

Responsible for maintaining quality customer service while generating sales at the community office level. Duties include managing branch staff, maintaining an efficient branch office, motivating staff for increased cross-sale and new sale levels, and controlling teller and branch outages.

Boyer, Scott (E) - EVP / Marketing and Retail

Work Phone x x 312

Cell Phone 206-295-1664

Castillo, Gabe (E) - Branch Manager

Work Phone x x 212

Cell Phone 206-349-6375

Figurelli, Jo (E) - Branch Manager

Work Phone x x 326

Cell Phone 206-755-1941

Osterberg, Kari (E) - Branch Manager

Work Phone x x 601

Cell Phone 360-460-2231

Rosborough, Larry (E) - Branch Manager

Work Phone x x 401

Sorrentino, Michele (E) - AVP / Branch Manager

Work Phone x x 504

Cell Phone 360-477-5095

Role - Community Banking Team Leader

Typically responsible for the recovery of community banking operations should a disaster destroy a branch office or disrupt communications from the core processing system. Confers regularly with Plan Administrator to ensure channels of communication are maintained throughout the recovery process.

Boyer, Scott (E) - EVP / Marketing and Retail

Work Phone x x 312

Cell Phone 206-295-1664

Team - Crisis Management Team

Role - Crisis Management Team Lead

Leads a team that will mitigate and contain extraordinary impacts to an organization. This includes events that, if unresolved for too long, could turn into another disaster. This plan reaches across the organization to anticipate impacts across the board. Determines where the real impacts are based on an extended damage assessment.

Provides leadership in managing the BC processes to address a major event affecting the operability of the institution, including assessment, declaration, resumption, recovery, and restoration.

Deines, Matt (E) - EVP / CFO

Work Phone x x 305

Cell Phone 206-300-0741

7/23/2010

Role - Pandemic Coordinator

Responsible for all pandemic planning and event response plans. Oversees pandemic planning and response efforts.

Deines, Matt (E) - EVP / CFO

Work Phone	x x 305
Cell Phone	206-300-0741

Team - Deposit Operations**Role - Call Center Associate**

Through telephone contact, provides service and cross-sells bank products to new and existing customers. Typical work performed includes responding to routine account inquiries, providing detailed account information to customers, cross-selling products and services where appropriate, tracking calls for statistical analysis, performing outbound tele-marketing, and directing non-routine calls to the appropriate area for resolution.

No People are assigned to this Role.

Role - Call Center Officer

Responsible for controlling all activities within the call center during day and evening shifts. Typical work performed includes administering cross-sell activities, overseeing call processing flows to ensure efficiency, ensuring the proper referral of calls among departments and/or branches, keeping statistics on call volumes, and assisting customers with inquiries relative to account and product information.

No People are assigned to this Role.

Role - Central File Clerk

Inputs data from work sheets to update the central information file. Typical work includes inputting data in predetermined formats, reviewing maintenance input, working with customer account portfolio mergers, and maintaining CIS indexing.

No People are assigned to this Role.

Role - Deposit Operations Clerk

Prepares various types of statements and other documents for mailing to customers and other departments, and maintains various customer service related records. Typical work performed includes preparing outgoing mail for the US Postal Service, maintaining various departmental files, and providing support for deposit accounts.

Clayton, Lisa (E) - Deposit Operations Coordinator

Work Phone	x x 206
------------	---------

Role - Deposit Operations Officer

Responsible for the daily operation of internal mail, return items, and other department-specific functions relative to deposit operations. Typical work includes ensuring the timely processing of internal and external mail, monitoring return items function, assisting in the completion of documents regarding subpoenas, writs, summons, search warrants, levies, and providing specialized operational assistance relative to customer service of deposit accounts.

Clayton, Lisa (E) - Deposit Operations Coordinator

Work Phone	x x 206
------------	---------

Sexton, Heidi (E) - VP / Operations

Work Phone	x x 228
Cell Phone	425-877-7287

7/23/2010

Role - Deposit Operations Team Leader

Typically is responsible for the recovery efforts should a disaster render the facility that houses this function as inaccessible. Confers regularly with the Plan Administrator to ensure that channels of communication are maintained throughout the recovery process.

Sexton, Heidi (E) - VP / Operations

Work Phone x x 228

Cell Phone 425-877-7287

Role - Electronic Banking Clerk

Maintains knowledge of electronic banking products to ensure quality customer service. Typical work performed includes the answering of routine electronic banking inquiries, inputting data from worksheets for application updates, and routinely maintaining ancillary electronic banking equipment.

No People are assigned to this Role.

Role - Electronic Banking Officer

Responsible for ATM units, point-of-sale devices, PC banking products and debit card functions. Typical work performed includes assisting with compliance to Regulation E issues, coordinating the installation of ATM units, training branch personnel in balancing and first line servicing of ATM units, assisting with the development, design and implementation of PC -based banking products, overseeing card management services, developing and training in debit card systems, maintaining equipment and service contracts, and assisting with customer service issues relative to electronic banking products.

No People are assigned to this Role.

Role - IRA Clerk

Performs various IRA clerical functions within the deposit operations department. Typical work performed includes maintaining IRA customer files and IRA signature card files, sorting and filing IRA related documents, and answering routine IRA customer and branch inquiries.

No People are assigned to this Role.

Role - Reconciliation Clerk

Reconciles applications of deposit accounts. Typical work performed includes reconciling computer output to the general ledger, making adjusting entries when required, assisting in the settlement of non-posted or invalid items, researching check, deposit or other items to determine proper disposition, correcting errors in encoding and acting to properly post or return the item.

No People are assigned to this Role.

Role - Switchboard Operator

Responsible for handling customer inquiries received via the PBX phone system. Typical work performed includes connecting incoming calls with the proper person or department, taking brief messages, reporting on problems or abnormalities with the switchboard or phone system to the telephone company or PBX administrator, and answering routine customer-related inquiries.

No People are assigned to this Role.

7/23/2010

Team - Executive

Role - Compliance Officer

Typically is involved in the advertisement and marketing functions. Also develops and monitors select employee group programs, works extensively with member information software, and develops reports.

Deines, Matt (E) - EVP / CFO

Work Phone x x 305

Cell Phone 206-300-0741

Role - EDP Auditor

Specializes in the audit of electronic data processing. Typical work performed includes authenticating records within the customer base, verifying loan and deposit confirmation forms, conducting operational audits of the data processing function including PC and LAN/WAN equipment, writing audit programs to facilitate the data processing function, assisting regulatory agencies and external auditors with their examination of EDP, reviewing new software or changes to existing software in order to assure proper audit controls, and ensuring data integrity during conversions and corporate acquisitions.

Deines, Matt (E) - EVP / CFO

Work Phone x x 305

Cell Phone 206-300-0741

Role - Executive Team Leader

Typically is responsible for overseeing recovery of the executive offices in the event of a disaster. Works closely with the Plan Administrator to ensure that effective internal and external communications are maintained throughout the recovery process.

Stewart, Laurie (E) - President / CEO

Work Phone x x 306

Cell Phone 206-949-3823

Role - Secretary

Performs diversified and advanced clerical duties and assignments that require extensive knowledge of department operations and technical procedures. Typical work performed includes assembling data as necessary to answer correspondence, transcribing dictation, mailing, copying, maintaining calendars and appointments, facilitating meetings, providing customers and the public with assistance on bank business, and attempting to resolve problems or to provide requested information.

No People are assigned to this Role.

Role - Staff Auditor

Assists with preparation, completion and reporting of all examinations performed by the audit department. Typical work performed includes authenticates records in accordance with established audit programs, proves teller cash and assists in locating differences, verifies compliance with state and federal regulations, and assists customers with account reconciliation problems.

No People are assigned to this Role.

7/23/2010

Team - Facilities

Role - Courier

Engages in the transfer, distribution, and collection of mail, messages, branch checks and items, coin, important documents, and supplies between offices and branches. Typical work performed includes making regular trips and necessary unscheduled trips between offices and departments, delivering various items of mail including return items to correspondent banks, delivering supply orders to and from offices, assisting in the preparation of outgoing mail, and picking up and delivery of mail to the post office.

No People are assigned to this Role.

Role - Facilities Team Leader

Typically responsible for overseeing the recovery of facilities in the event of a disaster. Confers regularly with the Plan Administrator to ensure that channels of communication are maintained throughout the recovery process.

Floyd, Gary (E) - Facilities Manager

Cell Phone	206-276-3872
------------	--------------

Role - Purchasing Officer

Responsible for purchasing supplies and office equipment and maintaining inventory control and equipment stock. Typical work performed includes evaluating supplies and equipment prior to purchase, negotiating favorable terms with vendors, preparing and placing orders, ensuring the maintenance of records and files relating to the purchasing function, and coordinating the incoming and outgoing movement of supplies from vendors to the departments and branches.

Blake, Sara (E) - Executive Assistant

Work Phone	x x 311
------------	---------

Cell Phone	206-240-1333
------------	--------------

Role - Supply Clerk

Engages in receiving, stocking, distributing and storing of supplies. Typical work performed includes filling supply orders from requisitions, receiving shipments, ensuring that proper amount and condition of deliveries are received, stocking of shipments, ensuring stock rotation, sorting and storing records, overseeing the shredding of old records, and preparing and placing orders for furniture, equipment, and supplies.

Blake, Sara (E) - Executive Assistant

Work Phone	x x 311
------------	---------

Cell Phone	206-240-1333
------------	--------------

Team - Human Resources

Role - Human Resource Clerk

Prepares necessary updates to employee files relating to all benefit programs. Typical work performed includes maintaining employee-related reports on a PC, assisting in the updating of employee records, reviewing and processing changes with insurance carriers, preparing monthly payments to benefit providers, and providing assistance in employee payroll processing.

Floyd, Pat (E) - SVP / Human Resources

Work Phone	x x 313
------------	---------

Cell Phone	253-732-7748
------------	--------------

7/23/2010

Role - Human Resource Officer

Responsible for administering various salary and benefit programs and maintaining control over various administrative functions. Typical work performed includes communicating salary and benefit programs to employees, assisting in the administration of the payroll function, balancing various program accounts, developing and coordinating computer functions within the department, and working with benefit providers to ensure continuation of service.

Floyd, Pat (E) - SVP / Human Resources

Work Phone x x 313

Cell Phone 253-732-7748

Role - Human Resource Team Leader

Oversees recovery efforts should a disaster render the facility that houses this function inaccessible. Confers regularly with the Plan Administrator to ensure that effective channels of communication are maintained throughout the recovery process.

Floyd, Pat (E) - SVP / Human Resources

Work Phone x x 313

Cell Phone 253-732-7748

Team - Information Systems**Role - Adjustment Clerk**

Performs duties requiring specific background knowledge to research and adjust conditions that are outside of expected results. Typical work performed includes researching exceptions that occur with customers and other banks, entering adjustment information needed to rectify differences, verifying information on teller differences to provide reconciliation between actual results and expected results, coordinating local check exchanges with participating banks, and reviewing currency transaction reports to ensure proper reporting of transactions.

No People are assigned to this Role.

Role - Computer Operator

Performs a variety of well defined operations within a data center environment for the purpose of updating records, preparing reports and maintaining data communications. Typical work performed includes completing program runs on assigned shift, reporting on problems and/or irregularities in the processing of daily work, assisting on-call personnel in problem resolution, investigating and reporting on input integrity as needed, training new operators, and maintaining computer equipment to mitigate downtime.

Haines, David (E) - VP / IT Manager

Work Phone x x 209

Cell Phone 206-300-5296

Role - Information Systems Team Leader

Typically oversees the recovery of information systems in the event of a disaster and oversees resumption efforts at the hot-site location. Confers regularly with the Plan Administrator to ensure that effective communications are maintained throughout the recovery process.

Haines, David (E) - VP / IT Manager

Work Phone x x 209

Cell Phone 206-300-5296

7/23/2010

Role - Manager of Computer Operations

Responsible for supervising the daily activities of the computer operations area. Typical work performed includes maintaining processing and distribution schedules, ensuring quality of output, establishing standards to ensure efficiencies, safeguarding programs, data files and output from loss, and establishing operating parameters to achieve optimum system utilizations.

Haines, David (E) - VP / IT Manager

Work Phone x x 209

Cell Phone 206-300-5296

Role - PC Coordinator

Coordinates microcomputer functions among the branches and departments. Typical work performed includes coordinating the purchase, setup, repair, and upgrade of microcomputer equipment, ensuring that purchasing practices comply with microcomputer policy, coordinating the in-house microcomputer education process for hardware and software platforms, establishing and monitoring off-site backup and rotation of software and operating systems, and assisting in the research and selection of hardware and software to meet specific needs.

Haines, David (E) - VP / IT Manager

Work Phone x x 209

Cell Phone 206-300-5296

Role - Proof Clerk

Operates a proof machine to prove and encode debits and credits for computer processing. Typical work performed includes preparing offsetting entries from predetermined batch totals, preparing general ledger entries, ensuring encoding requirements of control tickets and proper sequence of batches, proving over-the-counter work to ensure that work is received as scheduled and is properly distributed, locating and correcting out-of-balance conditions, reconciling miscellaneous entries to department accounts, ensuring the proper retention of department records, and microfilming records.

No People are assigned to this Role.

Role - Records Retention Clerk

Works with the distribution and retention of electronically produced records. Typical work performed includes preparing paper forms for distribution to various departments, maintaining a library of assigned records to include microfilm, microfiche, and other media retained for research purposes, and operating a variety of business machines specific to the records research and distribution function.

No People are assigned to this Role.

Role - Sorter Operator

Operates a reader/sorter machine to prepare input for update processing and sorts documents for departmental preparation. Typical work includes performing document capture for batch or image processing, performing bulk and fine sorting of documents for statement rendering, maintaining equipment in accordance with prescribed maintenance schedules, and ensuring that daily cycles and exception items are filed properly for future processing.

No People are assigned to this Role.

7/23/2010

Role - Technical Support Officer

Responsible for overseeing projects related to remote device installations and communications devices. Typical work performed includes installation of PC and peripheral equipment, development of documentation and training of PC and telecommunications equipment, evaluation of voice and data communications systems for cost effectiveness, billing accuracy, and policy adherence, and coordination of the installation, and/or relocation of voice and data communications equipment.

Haines, David (E) - VP / IT Manager

Work Phone x x 209

Cell Phone 206-300-5296

Team - Marketing**Role - Marketing Officer**

Typically is involved in the advertisement and marketing functions. Also develops and monitors select employee group programs, works extensively with member information software, and develops reports.

No People are assigned to this Role.

Role - Marketing Team Leader

Typically responsible for overseeing recovery efforts should a disaster render the facility that houses this function inaccessible. Confers regularly with the Plan Administrator to ensure that effective channels of communication are maintained throughout the recovery process.

Boyer, Scott (E) - EVP / Marketing and Retail

Work Phone x x 312

Cell Phone 206-295-1664

Team - Plan Administration**Role - Plan Administrator**

Typically responsible for overseeing global recovery efforts in the event of a disaster. Works with individual team leaders to establish temporary quarters and command centers. Works with appropriate team leaders to communicate recovery status with the staff and the with members. Keeps management and board of directors up-to-date on recovery efforts and contingency processing issues.

Deines, Matt (E) - EVP / CFO

Work Phone x x 305

Cell Phone 206-300-0741

Role - Plan Owner

Anything to do with decisions about implementing a strategy is the responsibility of the plan owner. There may be supporting roles (IT, HR, Facilities) but the ultimate responsibility rests with the person who is the plan owner.

Deines, Matt (E) - EVP / CFO

Work Phone x x 305

Cell Phone 206-300-0741

Report Description

This report provides a team-specific list of the actions it must perform within the plan. Only the subtasks (actions) which have team positions assigned to them will appear in the list. Roles assigned to a task and people assigned to roles are listed in order of priority.

People key: (E) = Employee, (V) = Vendor Representative

Process Action Plan (Basic)

Sound Community Bank Continuity Plan

Sound Community Bank
Business Continuity Plan

7/23/2010

Process - Branch Recovery (PCS0000004)

Critical Rating - 5

RTO (Hours) - 48.00

RPO (Hours) - 48.00

Task - Branch Recovery

Task Owner(s)

- Accounting Team Leader (Accounting)
- Branch Manager (Community Banking)
- Community Banking Team Leader (Community Banking)
- Crisis Management Team Lead (Crisis Management Team)
- Deposit Operations Team Leader (Deposit Operations)
- Human Resource Team Leader (Human Resources)
- Information Systems Team Leader (Information Systems)
- Plan Administrator (Plan Administration)

Seq. Subtask / Action

- 1 Assemble the branch disaster recovery team at the command center to begin the initial steps for restoration of branch services lost due to the disaster.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

- 2 Work with the Plan Administrator to secure damaged facilities and equipment. Special attention should be given to vault contents, safe deposit boxes, ATM, and the night depository.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Facilities Team Leader (Facilities) Floyd, Gary (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

- 3 Work with the appropriate team leader to locate temporary facilities at an alternate branch or temporary trailer to continue operations.

Refer to the branch recovery matrix for alternate branch locations.

Refer to the vendor list for suppliers of temporary office trailers.

If feasible, the temporary office trailer can be located in the parking lot of the damaged facility until the permanent facility restoration process is completed.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Executive Team Leader (Executive) Stewart, Laurie (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

- 4 Work with the facilities team leader to restore telephone equipment and establish voice communications at the affected branch or temporary facility. This would include the restoration of the fax number and internet access, if applicable.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Facilities Team Leader (Facilities) Floyd, Gary (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

Sound Community Bank Continuity Plan

7/23/2010

	Technical Support Officer (Information Systems)	Haines, David (E)
5	Work with the information systems team leader to restore data communications at the affected branch or temporary facility. Data communication would include access to the core processing system and to the wide or local area network. If backups of software and files not associated with the network system are stored at an off-site location, work with information systems team leader to retrieve backups and restore information to replacement PCs. <u>Assigned Roles</u> <u>People</u> Community Banking Team Leader (Community Banking) Boyer, Scott (E) Information Systems Team Leader (Information Systems) Haines, David (E) Technical Support Officer (Information Systems) Haines, David (E)	
6	Work with the information systems and the purchasing departments to restore PCs, peripheral software, and equipment. <u>Assigned Roles</u> <u>People</u> Information Systems Team Leader (Information Systems) Haines, David (E) Purchasing Officer (Facilities) Blake, Sara (E)	
7	Work with the Plan Administrator to restore security equipment, alarms, alarm monitoring service, and night depository service to the affected office or temporary facility. Refer to the vendor list and the brand of equipment to contact service providers. Combinations and PIN keys should be changed when branch operations move from the damaged facility to the temporary facility and then to the restored permanent facility. This is especially important if vendors and personnel from other branch offices have access to facilities during the recovery and restoration period. <u>Assigned Roles</u> <u>People</u> Facilities Team Leader (Facilities) Floyd, Gary (E) Plan Administrator (Plan Administration) Deines, Matt (E)	
8	If applicable, work with the deposit operations team leader to restore ATM service to the affected branch or temporary facility. The ATM restoration process will be coordinated by Electronic Banking personnel. <u>Assigned Roles</u> <u>People</u> Deposit Operations Team Leader (Deposit Operations) Sexton, Heidi (E) Electronic Banking Officer (Deposit Operations) No People are assigned.	
9	Work with the marketing department to inform customers of the opening of the temporary facilities. Keep personnel informed about special hours, promotions, and limitations to services offered, if applicable. When branch operations returns to the permanent, restored facility, work with the marketing department to again inform customers of the opening of the restored office. Keep branch personnel abreast of any changes and promotions. <u>Assigned Roles</u> <u>People</u> Community Banking Team Leader (Community Banking) Boyer, Scott (E) Executive Team Leader (Executive) Stewart, Laurie (E) Marketing Team Leader (Marketing) Boyer, Scott (E)	

10	Meet with branch personnel at the disaster command center to inform them of the branch opening schedules and of the branch recovery and restoration process. Remind them that media inquiries should be referred to the branch manager's or marketing department's attention.

RPO (Hours) - 48.00

Task - Core Systems Recovery

Task Owner(s) Crisis Management Team Lead (Crisis Management Team)
Deposit Operations Team Leader (Deposit Operations)
Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

<u>Seq.</u>	<u>Subtask / Action</u>
-------------	-------------------------

- | | |
|---|--|
| 1 | The disaster plan should be reviewed with key departmental personnel at regular intervals to solidify awareness of plan essentials, and to mitigate any unnecessary confusion that would be presented in a contingency processing environment. |
|---|--|

Assigned Roles

People

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

- | | |
|---|---|
| 2 | The disaster recovery plan is a live document that requires regular and continual maintenance to ensure its ability to act as a resource for disaster recovery and business resumption. It is suggested that the plan be reviewed at least annually, or whenever changes are made that affect the department's workflow. Additionally, the plan should be exercised through desktop or hot-site simulation testing at least annually; more often if changes in the environment dictate the need for more frequent testing. The test results should be documented, and exposures and weaknesses corrected upon completion of the exercise. |
|---|---|

Assigned Roles

People

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

- | | |
|---|--|
| 3 | Contact the hot-site vendor as notification that a disaster has occurred, and that information systems personnel will be on-site to restore the core processing system. Provide the hot-site vendor with an estimated time of arrival. |
|---|--|

Assigned Roles

People

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

- | | |
|---|---|
| 4 | Retrieve the core processing system backup tapes from the off-site location. The most recent data base backups should be retrieved. |
|---|---|

Assigned Roles

People

Computer Operator (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

- | | |
|---|---|
| 5 | Contact information systems personnel and arrange for a meeting place and time to commute to the hot site location. |
|---|---|

Assigned Roles

People

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

7/23/2010

- 6 Establish transportation of backup tapes to the hot-site location. Tapes should arrive at hot-site location as soon as possible to begin the restoration of the core processing system.

Assigned RolesPeople

Computer Operator (Information Systems)	Haines, David (E)
---	-------------------

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

-
- 7 Upon arrival at the hot-site location, coordinate the restoration of the backup tapes to the hot-site core processing system. The following steps detail this process:

Assigned RolesPeople

Computer Operator (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

-
- 8 Once the backup tapes are loaded onto the core processing system, contact the Plan Administrator. The Plan Administrator should meet with the team leaders to identify the processes that must be run on the core processing system. The information systems team leader and the Plan Administrator should prioritize the processing requests and run them in the order of priority. The Plan Administrator will notify the team leaders of the priority of items and with an estimated run time.

Assigned RolesPeople

Computer Operator (Information Systems)	Haines, David (E)
---	-------------------

Information Systems Team Leader (Information Systems)	Haines, David (E)
---	-------------------

Manager of Computer Operations (Information Systems)	Haines, David (E)
--	-------------------

Plan Administrator (Plan Administration)	Deines, Matt (E)
--	------------------

Process - Pandemic Event Response (PCS0000078)

Critical Rating - 4

RTO (Hours) - 24.00

RPO (Hours) - 24.00

Task - Activate Work at Home Strategy

Task Owner(s) Human Resource Team Leader (Human Resources)
 Information Systems Team Leader (Information Systems)
 Plan Administrator (Plan Administration)

<u>Seq.</u>	<u>Subtask / Action</u>
1	Contact department employees to assess their ability to do work. They may be ill, members of their family may be ill, or there may be other circumstances where they are unable to work. As department manager, monitor the health of your family, and your ability to continue working. Ensure your assistant or backup manager is healthy and ready to assume department management in your absence. Should your alternate become ill, immediately identify someone in the department to become your new alternate. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
2	Using the list of critical processes developed during pre-event planning, review and make any needed revisions and communicate them to your management, and to the Pandemic Coordinator, Planning Coordinator, or the Crisis Management team. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
3	Using the list of employees able to work, assign critical processes or functions to employees. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
4	Certain departments within the organization will either use a work transfer or an in-office pandemic strategy. Know the strategies being used by departments that have an upstream or downstream dependency on processes operating within your department. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
5	Communicate regularly with any managers whose processes depend on process output from your department. Ensure that information, documents, decisions required by these managers is available in a timely manner. Communicate regularly with the managers that your processes depend on in order to ensure their workflow proceeds satisfactorily. Reconcile any issues. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
6	Check with each employee assigned a process or processes to identify any documents, reports, or technology access that is not available to them presently. List the issues that must be addressed for each process or function, and communicate your needs to the Pandemic Coordinator, Plan Administrator, or Crisis Management Team. <u>Assigned Roles</u> <u>People</u> Plan Owner (Plan Administration) Deines, Matt (E)
7	At least weekly, conduct a conference call with your staff using a conference bridge phone service provided by the Pandemic Coordinator or BCP Plan Administrator. Plan these conference calls carefully to be as efficient as possible. More than likely, the conference bridge will be a shared facility to be used by other

7/23/2010

departments. In addition to the weekly conference call for the department, communicate with employees one on one on a regular basis. Ensure that each has not become ill or their family status has not changed. Keep your manager or executive apprised of your status and any issues or shortfall your employees are facing.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 8 Periodically review the overall pandemic event status with your management, the Pandemic Coordinator, Plan Administrator, or Crisis Management Team. Be ready to make any needed changes to your Work At Home practices as required or recommended.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 9 On notification that the Pandemic Coordinator, Planning Coordinator, or Crisis Management Team has determined to stand down from the Pandemic threat, contact department employees and inform them of the date and time they can resume work in the office. Ensure that all employees are prepared to come back to work. Remind department employees to bring in all records, mail, packages, and other information they've used at home during the WAH activities.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 10 Three days after work resumption in the office, conduct a post mortem to review and address any issues that may have been identified during the WAH period. Document all issues, resolved or not. For unresolved issues, make action step assignments to ensure issue closure in a reasonable timeframe, and that any changes to WAH processes, technology issues, or facilities issues are corrected in the plans. Document all post mortem discussions, assignments, due dates, and action steps. Publish the post mortem documentation to the Pandemic Coordinator, the Plans Coordinator, or Crisis Management team, as prescribed by these positions.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

7/23/2010

Task - Activate In-Office Strategy

Task Owner(s) Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

Seq. Subtask / Action

- 1 Upon notification of declaration of the pandemic event, contact all members of staff. While it's likely the Pandemic Coordinator or executive management will have provided an announcement to staff about the situation, check the status of each employee and their families to ensure they are able to do work and come to the office. Ensure that staff understands the arrival processes established by Facilities, and request that they follow those procedures. Remind them to check the workstation assignment list that you'll place at the department entrance, and for them to go directly to that workstation. Also remind them to clean the telephone hand and headsets, the PC keyboard and any other hard surfaces that they will come into contact with.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

- 2 Verify with Facilities the names of your staff that are approved to enter the facility. Ensure that Facilities has an entrance process to isolate employees as they arrive, and that masks and other protective facilities are in place.

Assigned Roles

Facilities Team Leader (Facilities)

Pandemic Coordinator (Crisis Management Team)

Plan Owner (Plan Administration)

People

Floyd, Gary (E)

Deines, Matt (E)

Deines, Matt (E)

- 3 Assign employees into specific workstation locations. Place the workstation assignment list at the department entrance.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

- 4 Periodically check with employees at their workstations to ensure that they are working successfully, and that they are mentally and physically comfortable at their workstation.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

- 5 If the department operates using multiple shifts, ensure that turnover processes are not conducted face to face. Instead, use conference bridge lines and conduct the sessions early enough before shift change to settle all issues within the time allotted.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

- 6 On notification that the pandemic emergency is standing down, contact all department employees and advise them to resume their normal work coverage at their regular work stations. If the assessment of the Pandemic Coordinator or Crisis Management team is that a pandemic wave has concluded, but that the potential for additional waves may occur, continue to monitor the availability and usability of the assigned workstations for the original department pandemic strategy.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

Sound Community Bank Continuity Plan

7/23/2010

- 7 Following the stand down, meet with staff to identify any changes in the workstations or strategy practices. Meet with IT and facilities to discuss any desired changes.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

7/23/2010

Task - Activate Work Transfer Strategy

Task Owner(s) Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

Seq. Subtask / Action

- 1 Upon notification from the Crisis Management Team or the Pandemic Coordinator that a pandemic event has been declared, contact all department employees and request that they remain at home. Ask each employee of their ability to work if needed, and request that they contact you or your alternate should their status change. Contact your alternate (Plan Builder or other manager alternate) and inform the person that you are going to execute the work transfer strategy, per instructions from the Crisis Management Team or Pandemic Coordinator. Request that the alternate inform you immediately if their health status should change.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 2 Inform the contracted service provider or reciprocal process recipient of the need to activate the transfer process. Set a time for transfer, and indicate that you'll effect the transfer after execution of the technology portions of the transfer plan.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 3 Contact IT, and inform them of the need to execute the technical portion of the transfer plan along with the timing of the transfer. Indicate that this will include transfer of all 800 numbers and lines, as well as activation of all IDs and authorities. Verify that application access is in place for the receiving party, and request immediate notification should any problems or issues be encountered. Ask that IT contact you when the processes have been completed.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 4 On notification from IT that the transfers have been successfully completed, contact the receiving agent and indicate that the transfer process has been completed, and that they should begin working the transferred process.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 5 Establish periodic checkpoints with the service provider or process transfer agent, to ensure processes are progressing satisfactorily, and that customer expectations are being met. On notification from the service provider or process transfer agent that an issue or issues have been identified that affect service, work to close the issues. If closure requires assistance from IT, or some other department within the organization, coordinate closure on the issue or issues. If required assistance is required from your department to the service provider or process transfer organization, coordinate and facilitate travel to the site, selecting expertise from within the department that has been out of contact with any potential disease carrier for at least 7 days. Ensure travel to the location follows the organization's travel policies to minimize potential contagion. Recommend that the traveling employee takes adequate masking and cleansing facilities to reduce the chance of infection.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

7/23/2010

- 6 On notification that the Pandemic Coordinator, Planning Coordinator, or Crisis Management Team has determined to stand down from the Pandemic threat, contact the service provider or process transfer agent and information them that the situation will be closed within a specific time frame.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 7 Contact department employees, and indicate that the pandemic situation is being closed, and that they should prepare to go back to work in the office at a specific time. Ensure that employees are provided with any specific instructions about re-entering the work environment, or that employees are told where such specific information is available. Enlist their support in following these instructions. Ideally, transition back to a normal work environment will occur either over a weekend, or at the beginning of a work day to reduce the chance of lost work or missed customer expectations.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 8 Contact IT and inform them of the need to transfer lines and computing systems access back to the normal work environment. Provide the exact date and time that the transfer should occur, coordinating it with the arrival of department employees to accept the work.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 9 Once employees are in place to receive the workload back from the work transfer point, contact the work transfer agent and have them stand down.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

- 10 Within 3 work days of receiving the processes back to a normal work environment, schedule a conference call between the work transfer agent, your department, and representatives of IT that supported your work transfer plans. Conduct a review of how the transfer worked, identifying any technical, process, or managerial issues that arose while the transfer was in place. In this post mortem analysis meeting, document any action items requiring follow-up, including changes to transfer procedures, IT access and communications issues, process issues, and any required changes to the pandemic and BCP plans involved with work transfer. Publish a final post mortem report to all involved parties to ensure that all appropriate information is documented and made available to those with action item responsibilities.

Assigned RolesPeople

Plan Owner (Plan Administration)

Deines, Matt (E)

7/23/2010

Task - Branch Employee Illness Response

Task Owner(s) Human Resource Officer (Human Resources)
Plan Administrator (Plan Administration)

Seq. Subtask / Action

- 1 Remind each employee to immediately inform branch management if they or members of their family become ill. Upon notification by an employee that they are ill, notify the Pandemic Coordinator, Branch Operations, or the Crisis Management Team of the situation.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
Castillo, Gabe (E)
Figurelli, Jo (E)
Osterberg, Kari (E)
Rosborough, Larry (E)
Sorrentino, Michele (E)

- 2 Request instructions concerning the need to send all employees home and close the branch. Considerations may be to wait on verification of the disease affecting the ill employee, or the recognition of a related situation within the company that would activate the trigger to close the branch.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
Castillo, Gabe (E)
Figurelli, Jo (E)
Osterberg, Kari (E)
Rosborough, Larry (E)
Sorrentino, Michele (E)

- 3 If the decision is to close the branch, contact all employees and inform them of the need either go home at this time, or if at home, to stay there until further notice.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
Castillo, Gabe (E)
Figurelli, Jo (E)
Osterberg, Kari (E)
Rosborough, Larry (E)
Sorrentino, Michele (E)

- 4 Attach and display any specified signage in the designated locations to inform customers wishing to use the branch of other branches where they can conduct their banking business.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
Castillo, Gabe (E)
Figurelli, Jo (E)
Osterberg, Kari (E)
Rosborough, Larry (E)
Sorrentino, Michele (E)

7/23/2010

- 5 Perform all normal branch closing procedures, lock the doors and leave the premises.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

- 6 Periodically contact your branch assistant manager to ensure that person can still work (is not sick, or experiencing illness in their family). If for any reason the individual is not able to work, immediately identify another assistant or alternate who can assume your responsibilities if you become unable to work. Should you become ill, immediately inform Branch Operations, your alternate, and/or the Pandemic Coordinator of the situation and indicate you're expecting your alternate to perform your duties until you can work again.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

- 7 Shortly after closing the branch, work with Facilities to determine the need to cleanse the branch building and equipment. Contact the cleaning service, or work with Facilities to bring the cleaning service into the facility.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

Facilities Team Leader (Facilities)

Floyd, Gary (E)

- 8 On notification that the end or the isolation period for employees has been reached, contact all employees in the branch and request them to begin work at the branch on a specific date (probably beginning the next work day).

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

7/23/2010

- 9 Arrive at the branch, and proceed with normal branch opening processes.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

Task - Crisis Management

<u>Task Owner(s)</u>	Accounting Team Leader (Accounting)
	Crisis Management Team Lead (Crisis Management Team)
	Deposit Operations Team Leader (Deposit Operations)
	Executive Team Leader (Executive)
	Facilities Team Leader (Facilities)
	Human Resource Team Leader (Human Resources)
	Information Systems Team Leader (Information Systems)
	Plan Administrator (Plan Administration)

Seq. Subtask / Action

- 1 Activate the Crisis Management team if any employee becomes infected with a diagnosed case of a qualified illness such as Avian Flu, or if a contagion is reported within the community.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

- 2 If a contagion is reported within the community, contact health agencies or governmental organizations that you've established a relationship with to gather any additional information that may be available.

Assigned Roles

People

Pandemic Coordinator (Crisis Management Team)

Deines, Matt (E)

- 3 Based on recognition of pending triggering situations (or direction from a local or state health agency's directive, contact the Crisis Management team and request virtual or actual assembly. Review current pandemic situation, and determine whether a trigger condition has been exceeded.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

Pandemic Coordinator (Crisis Management Team)

Deines, Matt (E)

- 4 If a trigger condition has been exceeded, discuss and approve actual pandemic declaration.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

7/23/2010

- 5 Take the following declaration steps:
- * Develop required communications messages to executive, employee, and general information releases.
 - * Execute calling trees to activate all plans through department managers. Request frequent updates from departments concerning how plan execution is proceeding.
 - * If an illness tracking system was put in place, activate the system if any employees become ill with a qualified illness such as Avian Flu.
 - * Track status if IT progress in implementing services to support pandemic strategies.
 - * Monitor all news media (TV, Radio, press, internet) for information about the spread or contraction of the disease patterns in the community.
 - * If the event was triggered by an internal employee, make certain that information is gathered about the employee's contacts. Notify those contacts to insure they are aware, and can take any steps needed to avoid contagion.
 - * Notify department managers of the need to immediately inform the Crisis Management team and their management chain if one or more of their employees become ill. Ensure HR is prepared to maintain information within the illness tracking system.
 - * Prepare and communicate regular situation status messages to all department heads; consider the appropriateness of publishing directly to employees through the organization's internal web site or email.
 - * Write and distribute messages to membership and customers concerning the organization's pandemic status, and the steps being taken to ensure membership or customer safety if they choose to come to a branch. Remind them of alternate means of conducting their business, such as internet banking, ATMs, or drive up facilities.
 - * Coordinate with Branch Operations to ensure signage, cleansing facilities, masks, and other containment facilities are in place and being used.

Assigned RolesPeople

Pandemic Coordinator (Crisis Management Team)

Deines, Matt (E)

- 6 If results from monitoring indicate that the disease has run its course for the current wave, make a decision on the timing for standing down from the pandemic situation. Other considerations would be if health officials indicate the wave is over or there are any official notifications through the media.

Assigned RolesPeople

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

- 7 As quickly as possible following the event, schedule activities to gather information about issues, problems (both open and closed) in preparation for a final post event review. Request that each department manager document information relating to their department, to be forwarded to the Crisis Management team or to you as the Pandemic Coordinator.

Assigned RolesPeople

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

- 8 Schedule a post event review with the crisis management team and any department managers experiencing issues or problems. Conduct the review meeting, recording each issue, whether closed or open, and for all open items, assign to specific individuals within the organization to be addressed. Ensure each assigned item is given a due date for closure. Create a final post event report, covering all items, discussions, assignments, and due dates.

Assigned RolesPeople

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

Sound Community Bank Continuity Plan

7/23/2010

- 9 Track all open items from the post event review to ensure that closure is achieved for each item.

Assigned Roles

Crisis Management Team Lead (Crisis Management Team)

People

Deines, Matt (E)

-
- 10 Ensure that all plan updates associated with specific open items are made, recorded and tracked for completion.

Assigned Roles

Crisis Management Team Lead (Crisis Management Team)

People

Deines, Matt (E)

7/23/2010

Task - IT Operations

Task Owner(s) Information Systems Team Leader (Information Systems)

Seq. Subtask / Action

- 1 When notified that a pandemic event has been declared, contact all employees involved with WAH, and if during working hours, direct them to leave immediately and proceed home. Remind them that should any change occur in their ability to work to contact you immediately.

Assigned RolesPeople

Information Systems Team Leader (Information Systems) Haines, David (E)

- 2 Contact facilities and have them cleanse the workstations you intend to occupy in your In-Office strategy. Once cleansed, move employees covered by In-Office to those workstations.

Assigned RolesPeopleFacilities Team Leader (Facilities) Floyd, Gary (E)
Information Systems Team Leader (Information Systems) Haines, David (E)

- 3 Because of the potential for increased demand for help desk and problem support, consider establishing multiple shifts for these areas. For further information about managing during implementation of WAH or In-Office strategies, see those processes documented within PLANet.

Assigned RolesPeople

Information Systems Team Leader (Information Systems) Haines, David (E)

- 4 On request from departments using the work transfer strategy, activate dormant third party accounts and IDs for all applications, systems, and servers that support the transferred processes. Ensure that firewalls, routers and other network control devices are adjusted to permit access into those identified applications, systems, and servers.

Assigned RolesPeople

Technical Support Officer (Information Systems) Haines, David (E)

- 5 In support of departments using the WAH strategy, periodically contact them to ensure that required technology is working properly and there are no technical problems limiting their productivity.

Assigned RolesPeople

Technical Support Officer (Information Systems) Haines, David (E)

- 6 On notification that the pandemic event has been closed, contact all employees and provide information when to report back to work. For employees working in the In-Office strategy, direct them to return to their normal workstations. For employees working at home, indicate the date and time to come back to work.

Assigned RolesPeople

Information Systems Team Leader (Information Systems) Haines, David (E)

- 7 On notification from departments that have used the work transfer strategy that work processes have been restored to normal operations, place system and application accounts or IDs in dormant status, Reconfigure network control devices to normal settings.

Assigned RolesPeople

Information Systems Team Leader (Information Systems) Haines, David (E)

7/23/2010

- 8 Schedule and conduct an event post-mortem to assess problems encountered and lessons learned. Document any required changes to procedures supporting the pandemic strategies.

Assigned RolesPeople

7/23/2010

Report Description:

This report lists processes in the plan, organized by category.

Business Function - Community Banking**Branch Recovery (PCS0000004)**

Description	The Community Banking Team Leader coordinates the recovery of retail banking operations, and works closely with the other team leaders to restore retail banking at the branch or administrative level.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	5

Business Function - Deposit Operations**Fedline Restoration (PCS0000024)**

Description	This section deals with the restoration of the FEDLINE terminal.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	4

Wire Transfer Restoration (PCS0000059)

Description	This section describes the steps necessary in restoring the wire transfer function should the facility that currently houses this function be rendered inaccessible as the result of a disaster.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	4

Business Function - Facilities**Pandemic Event Response (PCS0000078)**

Description	Respond to a pandemic event
RPO (Hours)	24.00
RTO (Hours)	24.00
Critical Rating	4

Business Function - Human Resources**Employee Contact and Work Schedule (PCS0000007)**

Description	This section identifies the steps in notifying the employees of the disaster, temporary work facilities, and work schedules.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	4

7/23/2010

Business Function - Information Systems

LAN/WAN Restoration (PCS0000011)

Description	This section describes the global steps to be followed in restoring Local Area Networks (LAN) and Wide Area Networks (WAN) should a disaster affect a facility that houses this equipment.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	4

Core Systems Recovery (PCS0000012)

Description	Details the steps necessary to recover the core processing system, should a disaster disrupt the facility that currently houses this function. The steps in this process include the procedures required to reestablish operations at a hot-site facility.
RPO (Hours)	48.00
RTO (Hours)	48.00
Critical Rating	4

7/23/2010

4 Restore communications equipment

Work with the facilities team leader to restore telephone equipment and establish voice communications at the affected branch or temporary facility. This would include the restoration of the fax number and internet access, if applicable.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Facilities Team Leader (Facilities) Floyd, Gary (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

Technical Support Officer (Information Systems) Haines, David (E)

5 Restore data communications

Work with the information systems team leader to restore data communications at the affected branch or temporary facility.

Data communication would include access to the core processing system and to the wide or local area network.

If backups of software and files not associated with the network system are stored at an off-site location, work with information systems team leader to retrieve backups and restore information to replacement PCs.

Assigned Roles

People

Community Banking Team Leader (Community Banking) Boyer, Scott (E)

Information Systems Team Leader (Information Systems) Haines, David (E)

Technical Support Officer (Information Systems) Haines, David (E)

6 Restore PCs and equipment

Work with the information systems and the purchasing departments to restore PCs, peripheral software, and equipment.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

Purchasing Officer (Facilities) Blake, Sara (E)

7 Restore security protocols

Work with the Plan Administrator to restore security equipment, alarms, alarm monitoring service, and night depository service to the affected office or temporary facility.

Refer to the vendor list and the brand of equipment to contact service providers. Combinations and PIN keys should be changed when branch operations move from the damaged facility to the temporary facility and then to the restored permanent facility. This is especially important if vendors and personnel from other branch offices have access to facilities during the recovery and restoration period.

Assigned Roles

People

Facilities Team Leader (Facilities) Floyd, Gary (E)

Plan Administrator (Plan Administration) Deines, Matt (E)

8 Restore ATM service

If applicable, work with the deposit operations team leader to restore ATM service to the affected branch or temporary facility. The ATM restoration process will be coordinated by Electronic Banking personnel.

Assigned Roles

People

Deposit Operations Team Leader (Deposit Operations) Sexton, Heidi (E)

Electronic Banking Officer (Deposit Operations) No People are assigned.

7/23/2010

9 Create statement to customers/members

Work with the marketing department to inform customers of the opening of the temporary facilities. Keep personnel informed about special hours, promotions, and limitations to services offered, if applicable.

When branch operations returns to the permanent, restored facility, work with the marketing department to again inform customers of the opening of the restored office. Keep branch personnel abreast of any changes and promotions.

Assigned RolesPeople

Community Banking Team Leader (Community Banking)

Boyer, Scott (E)

Executive Team Leader (Executive)

Stewart, Laurie (E)

Marketing Team Leader (Marketing)

Boyer, Scott (E)

10 Distribute branch opening schedules

Meet with branch personnel at the disaster command center to inform them of the branch opening schedules and of the branch recovery and restoration process. Remind them that media inquiries should be referred to the branch manager's or marketing department's attention.

Assigned RolesPeople

Community Banking Team Leader (Community Banking)

Boyer, Scott (E)

Plan Administrator (Plan Administration)

Deines, Matt (E)

7/23/2010

Business Function - Deposit Operations

Process - Fedline Restoration (PCS0000024)

Critical Rating - 4

RTO (Hours) - 48.00

RPO (Hours) - 48.00

Task - Fedline Restoration

Restore Fedline process

Task Owner(s) Accounting Team Leader (Accounting)
 Information Systems Team Leader (Information Systems)
 Plan Administrator (Plan Administration)

Seq. Subtask / Action

1 Backup Fedline terminal

A backup Fedline terminal equipped with an encryption card is stored at an off-site location. The encryption keys and master user codes are secured separately from the Fedline terminal, but are at the same location.

Assigned RolesPeople

Accountant (Accounting)

Liulamaga, Naza (E)

Deposit Operations Officer (Deposit Operations)

Clayton, Lisa (E)

Sexton, Heidi (E)

2 Obtain master user codes

Obtain the master user codes and password from the off-site location to aid in the restoration of the Fedline terminal.

Assigned RolesPeople

Accountant (Accounting)

Liulamaga, Naza (E)

Deposit Operations Officer (Deposit Operations)

Clayton, Lisa (E)

Sexton, Heidi (E)

EDP Auditor (Executive)

Deines, Matt (E)

3 Restore Fedline user codes

Refer to the list of users that is stored at the off-site location for the restoration of user codes. This list details the Fedline capabilities for each user.

Assigned RolesPeople

Accounting Clerk (Accounting)

Liulamaga, Naza (E)

Deposit Operations Officer (Deposit Operations)

Clayton, Lisa (E)

Sexton, Heidi (E)

EDP Auditor (Executive)

Deines, Matt (E)

4 Enlist support to restore Fedline terminal

Contact the necessary personnel to enlist technical support in restoring primary FEDLINE terminal.

Assigned RolesPeople

Accountant (Accounting)

Liulamaga, Naza (E)

Deposit Operations Officer (Deposit Operations)

Clayton, Lisa (E)

Sexton, Heidi (E)

Technical Support Officer (Information Systems)

Haines, David (E)

7/23/2010

5 Obtain equipment for Fedline terminal

Either through purchase or through an alternative source, obtain a printer and a modem for the Fedline terminal. Consult with the necessary personnel to reestablish communications with the Federal Reserve.

Assigned Roles

People

Accountant (Accounting)

Liulamaga, Naza (E)

Deposit Operations Officer (Deposit Operations)

Clayton, Lisa (E)

Sexton, Heidi (E)

Information Systems Team Leader (Information Systems)

Haines, David (E)

Process - Pandemic Event Response (PCS0000078)

Critical Rating - 4

RTO (Hours) - 24.00

RPO (Hours) - 24.00

Task - Activate Work at Home Strategy

Activate the work-at-home strategy for affected areas.

Task Owner(s) Human Resource Team Leader (Human Resources)
Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

<u>Seq.</u>	<u>Subtask / Action</u>				
1	Assess employees' ability to do work Contact department employees to assess their ability to do work. They may be ill, members of their family may be ill, or there may be other circumstances where they are unable to work. As department manager, monitor the health of your family, and your ability to continue working. Ensure your assistant or backup manager is healthy and ready to assume department management in your absence. Should your alternate become ill, immediately identify someone in the department to become your new alternate. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Plan Owner (Plan Administration)	Deines, Matt (E)				
2	Review/revise critical processes Using the list of critical processes developed during pre-event planning, review and make any needed revisions and communicate them to your management, and to the Pandemic Coordinator, Planning Coordinator, or the Crisis Management team. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Plan Owner (Plan Administration)	Deines, Matt (E)				
3	Assign critical functions to employees Using the list of employees able to work, assign critical processes or functions to employees. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Plan Owner (Plan Administration)	Deines, Matt (E)				
4	Identify dependencies affecting your department Certain departments within the organization will either use a work transfer or an in-office pandemic strategy. Know the strategies being used by departments that have an upstream or downstream dependency on processes operating within your department. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Plan Owner (Plan Administration)	Deines, Matt (E)				
5	Communicate with dependent departments Communicate regularly with any managers whose processes depend on process output from your department. Ensure that information, documents, decisions required by these managers is available in a timely manner. Communicate regularly with the managers that your processes depend on in order to ensure their workflow proceeds satisfactorily. Reconcile any issues. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Plan Owner (Plan Administration)	Deines, Matt (E)				

7/23/2010

- 6 Ensure employees performing critical functions have all necessary resources/supplies
- Check with each employee assigned a process or processes to identify any documents, reports, or technology access that is not available to them presently. List the issues that must be addressed for each process or function, and communicate your needs to the Pandemic Coordinator, Plan Administrator, or Crisis Management Team.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 7 Communicate with department staff and management
- At least weekly, conduct a conference call with your staff using a conference bridge phone service provided by the Pandemic Coordinator or BCP Plan Administrator. Plan these conference calls carefully to be as efficient as possible. More than likely, the conference bridge will be a shared facility to be used by other departments. In addition to the weekly conference call for the department, communicate with employees one on one on a regular basis. Ensure that each has not become ill or their family status has not changed. Keep your manager or executive apprised of your status and any issues or shortfall your employees are facing.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 8 Review pandemic event status
- Periodically review the overall pandemic event status with your management, the Pandemic Coordinator, Plan Administrator, or Crisis Management Team. Be ready to make any needed changes to your Work At Home practices as required or recommended.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 9 Inform staff of stand-down and communicate resumption procedures
- On notification that the Pandemic Coordinator, Planning Coordinator, or Crisis Management Team has determined to stand down from the Pandemic threat, contact department employees and inform them of the date and time they can resume work in the office. Ensure that all employees are prepared to come back to work. Remind department employees to bring in all records, mail, packages, and other information they've used at home during the WAH activities.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 10 Conduct post-mortem event review
- Three days after work resumption in the office, conduct a post mortem to review and address any issues that may have been identified during the WAH period. Document all issues, resolved or not. For unresolved issues, make action step assignments to ensure issue closure in a reasonable timeframe, and that any changes to WAH processes, technology issues, or facilities issues are corrected in the plans. Document all post mortem discussions, assignments, due dates, and action steps. Publish the post mortem documentation to the Pandemic Coordinator, the Plans Coordinator, or Crisis Management team, as prescribed by these positions.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

7/23/2010

Task - Activate In-Office Strategy

Activate the in-office strategy for affected areas.

Task Owner(s) Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

<u>Seq.</u>	<u>Subtask / Action</u>								
1	Employee notification procedures Upon notification of declaration of the pandemic event, contact all members of staff. While it's likely the Pandemic Coordinator or executive management will have provided an announcement to staff about the situation, check the status of each employee and their families to ensure they are able to do work and come to the office. Ensure that staff understands the arrival processes established by Facilities, and request that they follow those procedures. Remind them to check the workstation assignment list that you'll place at the department entrance, and for them to go directly to that workstation. Also remind them to clean the telephone hand and headsets, the PC keyboard and any other hard surfaces that they will come into contact with. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)				
<u>Assigned Roles</u>	<u>People</u>								
Plan Owner (Plan Administration)	Deines, Matt (E)								
2	Communicate approved staff to Facilities Verify with Facilities the names of your staff that are approved to enter the facility. Ensure that Facilities has an entrance process to isolate employees as they arrive, and that masks and other protective facilities are in place. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Facilities Team Leader (Facilities)</td><td>Floyd, Gary (E)</td></tr> <tr> <td>Pandemic Coordinator (Crisis Management Team)</td><td>Deines, Matt (E)</td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Facilities Team Leader (Facilities)	Floyd, Gary (E)	Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)	Plan Owner (Plan Administration)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>								
Facilities Team Leader (Facilities)	Floyd, Gary (E)								
Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)								
Plan Owner (Plan Administration)	Deines, Matt (E)								
3	Assign employees to workstations Assign employees into specific workstation locations. Place the workstation assignment list at the department entrance. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)				
<u>Assigned Roles</u>	<u>People</u>								
Plan Owner (Plan Administration)	Deines, Matt (E)								
4	Ensure each employee's ability to continue performing work Periodically check with employees at their workstations to ensure that they are working successfully, and that they are mentally and physically comfortable at their workstation. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)				
<u>Assigned Roles</u>	<u>People</u>								
Plan Owner (Plan Administration)	Deines, Matt (E)								
5	Establish plans to transfer work across shifts If the department operates using multiple shifts, ensure that turnover processes are not conducted face to face. Instead, use conference bridge lines and conduct the sessions early enough before shift change to settle all issues within the time allotted. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Plan Owner (Plan Administration)</td><td>Deines, Matt (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Plan Owner (Plan Administration)	Deines, Matt (E)				
<u>Assigned Roles</u>	<u>People</u>								
Plan Owner (Plan Administration)	Deines, Matt (E)								

7/23/2010

6 Inform employees of stand-down

On notification that the pandemic emergency is standing down, contact all department employees and advise them to resume their normal work coverage at their regular work stations. If the assessment of the Pandemic Coordinator or Crisis Management team is that a pandemic wave has concluded, but that the potential for additional waves may occur, continue to monitor the availability and usability of the assigned workstations for the original department pandemic strategy.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

7 Conduct post-mortem review

Following the stand down, meet with staff to identify any changes in the workstations or strategy practices. Meet with IT and facilities to discuss any desired changes.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

7/23/2010

Task - Activate Work Transfer Strategy

Activate the work transfer strategy for affected areas.

Task Owner(s) Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

Seq. Subtask / Action**1 Employee notification procedures**

Upon notification from the Crisis Management Team or the Pandemic Coordinator that a pandemic event has been declared, contact all department employees and request that they remain at home. Ask each employee of their ability to work if needed, and request that they contact you or your alternate should their status change. Contact your alternate (Plan Builder or other manager alternate) and inform the person that you are going to execute the work transfer strategy, per instructions from the Crisis Management Team or Pandemic Coordinator. Request that the alternate inform you immediately if their health status should change.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

2 Initiate work transfer to service provider

Inform the contracted service provider or reciprocal process recipient of the need to activate the transfer process. Set a time for transfer, and indicate that you'll effect the transfer after execution of the technology portions of the transfer plan.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

3 Contact IT to activate work transfer protocols

Contact IT, and inform them of the need to execute the technical portion of the transfer plan along with the timing of the transfer. Indicate that this will include transfer of all 800 numbers and lines, as well as activation of all IDs and authorities. Verify that application access is in place for the receiving party, and request immediate notification should any problems or issues be encountered. Ask that IT contact you when the processes have been completed.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

4 Inform service provider once transfer is complete

On notification from IT that the transfers have been successfully completed, contact the receiving agent and indicate that the transfer process has been completed, and that they should begin working the transferred process.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

5 Oversee transfer of processes

Establish periodic checkpoints with the service provider or process transfer agent, to ensure processes are progressing satisfactorily, and that customer expectations are being met. On notification from the service provider or process transfer agent that an issue or issues have been identified that affect service, work to close the issues. If closure requires assistance from IT, or some other department within the organization, coordinate closure on the issue or issues. If required assistance is required from your department to the service provider or process transfer organization, coordinate and facilitate travel to the site, selecting expertise from within the department that has been out of contact with any potential disease carrier for at least 7 days. Ensure travel to the location follows the organization's travel policies to minimize potential contagion. Recommend that the traveling employee takes adequate masking and cleansing facilities to reduce the chance of infection.

Assigned Roles

Plan Owner (Plan Administration)

People

Deines, Matt (E)

7/23/2010

- 6 Review stand-down procedures with service provider
- On notification that the Pandemic Coordinator, Planning Coordinator, or Crisis Management Team has determined to stand down from the Pandemic threat, contact the service provider or process transfer agent and inform them that the situation will be closed within a specific time frame.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 7 Review stand-down procedures with employees
- Contact department employees, and indicate that the pandemic situation is being closed, and that they should prepare to go back to work in the office at a specific time. Ensure that employees are provided with any specific instructions about re-entering the work environment, or that employees are told where such specific information is available. Enlist their support in following these instructions. Ideally, transition back to a normal work environment will occur either over a weekend, or at the beginning of a work day to reduce the chance of lost work or missed customer expectations.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 8 Inform IT of timeframe to end support for Work Transfer strategy
- Contact IT and inform them of the need to transfer lines and computing systems access back to the normal work environment. Provide the exact date and time that the transfer should occur, coordinating it with the arrival of department employees to accept the work.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 9 Transfer work back to normal operations staff
- Once employees are in place to receive the workload back from the work transfer point, contact the work transfer agent and have them stand down.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

- 10 Conduct post-mortem review
- Within 3 work days of receiving the processes back to a normal work environment, schedule a conference call between the work transfer agent, your department, and representatives of IT that supported your work transfer plans. Conduct a review of how the transfer worked, identifying any technical, process, or managerial issues that arose while the transfer was in place. In this post mortem analysis meeting, document any action items requiring follow-up, including changes to transfer procedures, IT access and communications issues, process issues, and any required changes to the pandemic and BCP plans involved with work transfer. Publish a final post mortem report to all involved parties to ensure that all appropriate information is documented and made available to those with action item responsibilities.

Assigned Roles

People

Plan Owner (Plan Administration)

Deines, Matt (E)

7/23/2010

Task - Branch Employee Illness Response

This strategy addresses how to react should an employee within a branch become infected with the pandemic disease. The strategy addresses: potential closure of the branch; notification to the public and customers of the branch closure.

Task Owner(s) Human Resource Officer (Human Resources)
 Plan Administrator (Plan Administration)

Seq. Subtask / Action**1** **Illness notification procedures**

Remind each employee to immediately inform branch management if they or members of their family become ill. Upon notification by an employee that they are ill, notify the Pandemic Coordinator, Branch Operations, or the Crisis Management Team of the situation.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

2 **Verify branch closing criteria and procedures**

Request instructions concerning the need to send all employees home and close the branch. Considerations may be to wait on verification of the disease affecting the ill employee, or the recognition of a related situation within the company that would activate the trigger to close the branch.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

3 **Inform employees of branch closing**

If the decision is to close the branch, contact all employees and inform them of the need either go home at this time, or if at home, to stay there until further notice.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

7/23/2010

4 Display branch signage

Attach and display any specified signage in the designated locations to inform customers wishing to use the branch of other branches where they can conduct their banking business.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

5 Close branch

Perform all normal branch closing procedures, lock the doors and leave the premises.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

6 Assess employees' ability to do work

Periodically contact your branch assistant manager to ensure that person can still work (is not sick, or experiencing illness in their family). If for any reason the individual is not able to work, immediately identify another assistant or alternate who can assume your responsibilities if you become unable to work. Should you become ill, immediately inform Branch Operations, your alternate, and/or the Pandemic Coordinator of the situation and indicate you're expecting your alternate to perform your duties until you can work again.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

7 Branch cleaning

Shortly after closing the branch, work with Facilities to determine the need to cleanse the branch building and equipment. Contact the cleaning service, or work with Facilities to bring the cleaning service into the facility.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

Facilities Team Leader (Facilities)

Floyd, Gary (E)

7/23/2010

8 Employee return-to-work procedures

On notification that the end of the isolation period for employees has been reached, contact all employees in the branch and request them to begin work at the branch on a specific date (probably beginning the next work day).

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

9 Re-open branch

Arrive at the branch, and proceed with normal branch opening processes.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

7/23/2010

Task - Community General Contagion Response

This strategy addresses a general contagion of disease within the general community. The organization needs to have prepared each branch with procedures, resources, and identified remote support should a community outbreak occur. The Pandemic Coordinator and team or the Crisis Management Team would make the decision to implement the strategy when the appropriate trigger threshold has been reached.

Task Owner(s) Executive Team Leader (Executive)
 Human Resource Team Leader (Human Resources)
 Plan Administrator (Plan Administration)

Seq. Subtask / Action

1 Review response procedures with staff

On notification of pandemic event declaration, branch manager will conduct a meeting with all staff, reminding them of the various procedures and resources that will be now be in place until further notice. Make certain all employees understand the sensitivity relating to these practices, and review the escalation plan within the branch for dealing with an uncooperative customer.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
 Castillo, Gabe (E)
 Figurelli, Jo (E)
 Osterberg, Kari (E)
 Rosborough, Larry (E)
 Sorrentino, Michele (E)

2 Prepare cleansing stations

Place all cleansing and masking supplies in the main lobby and customer areas of the branch; ensure that all signs and placards are prominently displayed. Consider placing a "greeter" near the door to instruct customers as they enter the bank.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
 Castillo, Gabe (E)
 Figurelli, Jo (E)
 Osterberg, Kari (E)
 Rosborough, Larry (E)
 Sorrentino, Michele (E)
 Facilities Team Leader (Facilities)
 Floyd, Gary (E)

3 Evaluate processes for containment

Periodically conduct an employee meeting to review the practices and resources, and to discuss how the overall disease containment process is working. Make note of any suggestions, review with branch operations to facilitate dissemination of information throughout the organization.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)
 Castillo, Gabe (E)
 Figurelli, Jo (E)
 Osterberg, Kari (E)
 Rosborough, Larry (E)
 Sorrentino, Michele (E)

7/23/2010

4 Ensure that pandemic supplies are stocked

Frequently check the level of pandemic supplies to ensure their continued availability. Order additional supplies as required.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

Facilities Team Leader (Facilities)

Floyd, Gary (E)

5 Take down cleansing stations

On notification of the end of the pandemic situation, remove all materials and signs and go back to normal operations.

Assigned Roles

Branch Manager (Community Banking)

People

Boyer, Scott (E)

Castillo, Gabe (E)

Figurelli, Jo (E)

Osterberg, Kari (E)

Rosborough, Larry (E)

Sorrentino, Michele (E)

Facilities Team Leader (Facilities)

Floyd, Gary (E)

7/23/2010

Task - Crisis Management

Responding to a pandemic may require the activation of the Crisis Management team and interaction with the public, news, and media.

<u>Task Owner(s)</u>	Accounting Team Leader (Accounting)
	Crisis Management Team Lead (Crisis Management Team)
	Deposit Operations Team Leader (Deposit Operations)
	Executive Team Leader (Executive)
	Facilities Team Leader (Facilities)
	Human Resource Team Leader (Human Resources)
	Information Systems Team Leader (Information Systems)
	Plan Administrator (Plan Administration)

Seq.	Subtask / Action
------	------------------

1	Activate Crisis Management team Activate the Crisis Management team if any employee becomes infected with a diagnosed case of a qualified illness such as Avian Flu, or if a contagion is reported within the community. <table> <tr> <td><u>Assigned Roles</u></td> <td><u>People</u></td> </tr> <tr> <td>Crisis Management Team Lead (Crisis Management Team)</td> <td>Deines, Matt (E)</td> </tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)				

2	Contact Health Agencies If a contagion is reported within the community, contact health agencies or governmental organizations that you've established a relationship with to gather any additional information that may be available. <table> <tr> <td><u>Assigned Roles</u></td> <td><u>People</u></td> </tr> <tr> <td>Pandemic Coordinator (Crisis Management Team)</td> <td>Deines, Matt (E)</td> </tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)				

3	Meet to review the current pandemic status Based on recognition of pending triggering situations (or direction from a local or state health agency's directive, contact the Crisis Management team and request virtual or actual assembly. Review current pandemic situation, and determine whether a trigger condition has been exceeded. <table> <tr> <td><u>Assigned Roles</u></td> <td><u>People</u></td> </tr> <tr> <td>Crisis Management Team Lead (Crisis Management Team)</td> <td>Deines, Matt (E)</td> </tr> <tr> <td>Pandemic Coordinator (Crisis Management Team)</td> <td>Deines, Matt (E)</td> </tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)	Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>						
Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)						
Pandemic Coordinator (Crisis Management Team)	Deines, Matt (E)						

4	Declare a business disruption If a trigger condition has been exceeded, discuss and approve actual pandemic declaration. <table> <tr> <td><u>Assigned Roles</u></td> <td><u>People</u></td> </tr> <tr> <td>Crisis Management Team Lead (Crisis Management Team)</td> <td>Deines, Matt (E)</td> </tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)
<u>Assigned Roles</u>	<u>People</u>				
Crisis Management Team Lead (Crisis Management Team)	Deines, Matt (E)				

7/23/2010

5 Execute pandemic strategies

Take the following declaration steps:

- * Develop required communications messages to executive, employee, and general information releases.
- * Execute calling trees to activate all plans through department managers. Request frequent updates from departments concerning how plan execution is proceeding.
- * If an illness tracking system was put in place, activate the system if any employees become ill with a qualified illness such as Avian Flu.
- * Track status if IT progress in implementing services to support pandemic strategies.
- * Monitor all news media (TV, Radio, press, internet) for information about the spread or contraction of the disease patterns in the community.
- * If the event was triggered by an internal employee, make certain that information is gathered about the employee's contacts. Notify those contacts to insure they are aware, and can take any steps needed to avoid contagion.
- * Notify department managers of the need to immediately inform the Crisis Management team and their management chain if one or more of their employees become ill. Ensure HR is prepared to maintain information within the illness tracking system.
- * Prepare and communicate regular situation status messages to all department heads; consider the appropriateness of publishing directly to employees through the organization's internal web site or email.
- * Write and distribute messages to membership and customers concerning the organization's pandemic status, and the steps being taken to ensure membership or customer safety if they choose to come to a branch. Remind them of alternate means of conducting their business, such as internet banking, ATMs, or drive up facilities.
- * Coordinate with Branch Operations to ensure signage, cleansing facilities, masks, and other containment facilities are in place and being used.

Assigned Roles

People

Pandemic Coordinator (Crisis Management Team)

Deines, Matt (E)

6 Initiate stand-down

If results from monitoring indicate that the disease has run its course for the current wave, make a decision on the timing for standing down from the pandemic situation. Other considerations would be if health officials indicate the wave is over or there are any official notifications through the media.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

7 Conduct post-mortem review

As quickly as possible following the event, schedule activities to gather information about issues, problems (both open and closed) in preparation for a final post event review. Request that each department manager document information relating to their department, to be forwarded to the Crisis Management team or to you as the Pandemic Coordinator.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

8 Conduct final post-event review and create report

Schedule a post event review with the crisis management team and any department managers experiencing issues or problems. Conduct the review meeting, recording each issue, whether closed or open, and for all open items, assign to specific individuals within the organization to be addressed. Ensure each assigned item is given a due date for closure. Create a final post event report, covering all items, discussions, assignments, and due dates.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

7/23/2010

9 Track open post-event review items

Track all open items from the post event review to ensure that closure is achieved for each item.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

10 Update plan based on post-event review results

Ensure that all plan updates associated with specific open items are made, recorded and tracked for completion.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team)

Deines, Matt (E)

7/23/2010

Task - IT Operations

IT Operations will need to provide support of the work-at-home, in-office, and work transfer strategies, as well as to execute plans for its own department.

Task Owner(s) Information Systems Team Leader (Information Systems)

Seq. Subtask / Action

- 1 **Contact employees using WAH strategies**
When notified that a pandemic event has been declared, contact all employees involved with WAH, and if during working hours, direct them to leave immediately and proceed home. Remind them that should any change occur in their ability to work to contact you immediately.

<u>Assigned Roles</u>	<u>People</u>
Information Systems Team Leader (Information Systems)	Haines, David (E)

- 2 **Clean in-office strategy workstations**
Contact facilities and have them cleanse the workstations you intend to occupy in your In-Office strategy. Once cleansed, move employees covered by In-Office to those workstations.

<u>Assigned Roles</u>	<u>People</u>
Facilities Team Leader (Facilities)	Floyd, Gary (E)
Information Systems Team Leader (Information Systems)	Haines, David (E)

- 3 **Evaluate IT support needs**
Because of the potential for increased demand for help desk and problem support, consider establishing multiple shifts for these areas. For further information about managing during implementation of WAH or In-Office strategies, see those processes documented within PLANet.

<u>Assigned Roles</u>	<u>People</u>
Information Systems Team Leader (Information Systems)	Haines, David (E)

- 4 **Provide IT support to departments using Work Transfer strategies**
On request from departments using the work transfer strategy, activate dormant third party accounts and IDs for all applications, systems, and servers that support the transferred processes. Ensure that firewalls, routers and other network control devices are adjusted to permit access into those identified applications, systems, and servers.

<u>Assigned Roles</u>	<u>People</u>
Technical Support Officer (Information Systems)	Haines, David (E)

- 5 **Provide IT support to departments using WAH strategies**
In support of departments using the WAH strategy, periodically contact them to ensure that required technology is working properly and there are no technical problems limiting their productivity.

<u>Assigned Roles</u>	<u>People</u>
Technical Support Officer (Information Systems)	Haines, David (E)

- 6 **Employee return-to-work procedures**
On notification that the pandemic event has been closed, contact all employees and provide information when to report back to work. For employees working in the In-Office strategy, direct them to return to their normal workstations. For employees working at home, indicate the date and time to come back to work.

<u>Assigned Roles</u>	<u>People</u>
Information Systems Team Leader (Information Systems)	Haines, David (E)

7/23/2010

7 End IT support for departments using Work Transfer Strategies

On notification from departments that have used the work transfer strategy that work processes have been restored to normal operations, place system and application accounts or IDs in dormant status, Reconfigure network control devices to normal settings.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

8 Conduct post-mortem review

Schedule and conduct an event post-mortem to assess problems encountered and lessons learned. Document any required changes to procedures supporting the pandemic strategies.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

Task - Pandemic Coordinator

The Pandemic Coordinator must oversee the event response and escalate issues to the Crisis Management Team.

Task Owner(s)

Crisis Management Team Lead (Crisis Management Team)

Human Resource Team Leader (Human Resources)

Plan Administrator (Plan Administration)

Seq. Subtask / Action

1 Determine whether declaration is necessary

Upon attainment of a pre-defined trigger, the Pandemic Coordinator will call the Crisis Management Team together to review the situation and make any required declaration.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team) Deines, Matt (E)

Pandemic Coordinator (Crisis Management Team) Deines, Matt (E)

2 Oversee pandemic strategy implementation

The Pandemic Coordinator will oversee the execution of all pandemic strategies. Last minute priority alignments will be directed through the Crisis Management Team.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team) Deines, Matt (E)

Pandemic Coordinator (Crisis Management Team) Deines, Matt (E)

3 Refer issues to Crisis Management team

Problems and issues identified to the Coordinator will be addressed or will be referred to the Crisis Management Team.

Assigned Roles

People

Crisis Management Team Lead (Crisis Management Team) Deines, Matt (E)

Pandemic Coordinator (Crisis Management Team) Deines, Matt (E)

4 Oversee work resumption activities

When the prescribed pandemic situation has been resolved, the Coordinator will oversee resumption of the normal working status, standing each strategy down within a timeframe consistent with safety and business need.

Assigned Roles

People

Pandemic Coordinator (Crisis Management Team) Deines, Matt (E)

2	Determine temporary location Work with the facilities team leader to determine temporary facilities and office space for displaced employees. Create a list of where departments will be housed, along with employee names. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Human Resource Team Leader (Human Resources)</td><td>Floyd, Pat (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Human Resource Team Leader (Human Resources)	Floyd, Pat (E)		
<u>Assigned Roles</u>	<u>People</u>						
Human Resource Team Leader (Human Resources)	Floyd, Pat (E)						
3	Contact affected employees With the help of the human resource staff, call the employees that have been affected by the disaster. Provide them with instructions regarding work facility location, work schedules, and parking arrangements. Remind employees that overtime may be necessary in the recovery and restoration processes. In addition, media inquiries should be directed to the marketing team leader or to the plan administrator. Customer inquiries should be directed to the area or telephone number specified by senior management. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Human Resource Clerk (Human Resources)</td><td>Floyd, Pat (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Human Resource Clerk (Human Resources)	Floyd, Pat (E)		
<u>Assigned Roles</u>	<u>People</u>						
Human Resource Clerk (Human Resources)	Floyd, Pat (E)						
4	Information for affected employees Work with the other team leaders to obtain any information that should be communicated to the affected employees. This would include any operational / procedural changes and any special instructions that employees should follow as a result of the disaster recovery. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Human Resource Clerk (Human Resources)</td><td>Floyd, Pat (E)</td></tr> <tr> <td>Human Resource Officer (Human Resources)</td><td>Floyd, Pat (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Human Resource Clerk (Human Resources)	Floyd, Pat (E)	Human Resource Officer (Human Resources)	Floyd, Pat (E)
<u>Assigned Roles</u>	<u>People</u>						
Human Resource Clerk (Human Resources)	Floyd, Pat (E)						
Human Resource Officer (Human Resources)	Floyd, Pat (E)						
5	Update employees on situation Keep employees informed of the disaster situation and aware of recovery efforts. <table> <tr> <td><u>Assigned Roles</u></td><td><u>People</u></td></tr> <tr> <td>Human Resource Team Leader (Human Resources)</td><td>Floyd, Pat (E)</td></tr> </table>	<u>Assigned Roles</u>	<u>People</u>	Human Resource Team Leader (Human Resources)	Floyd, Pat (E)		
<u>Assigned Roles</u>	<u>People</u>						
Human Resource Team Leader (Human Resources)	Floyd, Pat (E)

Sound Community Bank

Business Continuity Plan

Business Function - Information Systems

Process - Core Systems Recovery (PCS0000012)

RTO (Hours) - 48.00

Critical Rating - 4

RPO (Hours) - 48.00

7/23/2010

Task - Core Systems Recovery

Recover Core Systems

Task Owner(s) Crisis Management Team Lead (Crisis Management Team)
Deposit Operations Team Leader (Deposit Operations)
Information Systems Team Leader (Information Systems)
Plan Administrator (Plan Administration)

Seq. Subtask / Action

1 Review plan with personnel

The disaster plan should be reviewed with key departmental personnel at regular intervals to solidify awareness of plan essentials, and to mitigate any unnecessary confusion that would be presented in a contingency processing environment.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

2 Revise and Test plan

The disaster recovery plan is a live document that requires regular and continual maintenance to ensure its ability to act as a resource for disaster recovery and business resumption. It is suggested that the plan be reviewed at least annually, or whenever changes are made that affect the department's workflow. Additionally, the plan should be exercised through desktop or hot-site simulation testing at least annually; more often if changes in the environment dictate the need for more frequent testing. The test results should be documented, and exposures and weaknesses corrected upon completion of the exercise.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

3 Activate hotsite

Contact the hot-site vendor as notification that a disaster has occurred, and that information systems personnel will be on-site to restore the core processing system. Provide the hot-site vendor with an estimated time of arrival.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

Manager of Computer Operations (Information Systems) Haines, David (E)

4 Retrieve backup tapes

Retrieve the core processing system backup tapes from the off-site location. The most recent data base backups should be retrieved.

Assigned Roles

People

Computer Operator (Information Systems) Haines, David (E)

Manager of Computer Operations (Information Systems) Haines, David (E)

5 Arrange commute to hotsite

Contact information systems personnel and arrange for a meeting place and time to commute to the hot site location.

Assigned Roles

People

Information Systems Team Leader (Information Systems) Haines, David (E)

Manager of Computer Operations (Information Systems) Haines, David (E)

7/23/2010

6 Transport backup tapes to hotsite

Establish transportation of backup tapes to the hot-site location. Tapes should arrive at hot-site location as soon as possible to begin the restoration of the core processing system.

Assigned Roles

People

Computer Operator (Information Systems)	Haines, David (E)
Information Systems Team Leader (Information Systems)	Haines, David (E)
Manager of Computer Operations (Information Systems)	Haines, David (E)

7 Restore backup tapes

Upon arrival at the hot-site location, coordinate the restoration of the backup tapes to the hot-site core processing system. The following steps detail this process:

Assigned Roles

People

Computer Operator (Information Systems)	Haines, David (E)
Manager of Computer Operations (Information Systems)	Haines, David (E)

8 Contact Plan Administrator

Once the backup tapes are loaded onto the core processing system, contact the Plan Administrator. The Plan Administrator should meet with the team leaders to identify the processes that must be run on the core processing system. The information systems team leader and the Plan Administrator should prioritize the processing requests and run them in the order of priority. The Plan Administrator will notify the team leaders of the priority of items and with an estimated run time.

Assigned Roles

People

Computer Operator (Information Systems)	Haines, David (E)
Information Systems Team Leader (Information Systems)	Haines, David (E)
Manager of Computer Operations (Information Systems)	Haines, David (E)
Plan Administrator (Plan Administration)	Deines, Matt (E)

Report Description:

This report lists all the characteristics of every Application organized by application name.

Branch Recovery (PCS0000004)

FedLine (APP0000003)

Application Details

Purpose Global bank and customer funds movement.

BIA Details

BIA Last Updated 7/13/2010

IT Support? Yes

Time to Recover 48 est.

Manual Workaround Fax/Verbal Transactions with the Fed.

Workaround Effectiveness 3-4

FIS (APP0000004)

Application Details

Purpose All customer transaction functions.

BIA Details

BIA Last Updated 7/13/2010

IT Support? Yes

Time to Recover 48 hrs.

Manual Workaround Sequim data connection to FIS.

Workaround Effectiveness 4

ShoreTel/Phone System (APP0000005)

Application Details

Purpose Voice Communications

BIA Details

BIA Last Updated 7/13/2010

IT Support? Yes

Time to Recover 12-36 hrs.

Manual Workaround Cell phones, emergency fax (hard line) phone

Workaround Effectiveness 4

7/23/2010

Core Systems Recovery (PCS0000012)

FIS (APP0000004)

Application Details

Purpose	All customer transaction functions.
---------	-------------------------------------

Software Details

7/23/2010

Report Description:

This report lists all the characteristics of each software product organized by product name.

Anti-virus software (SFT0000001)

Description	Anti-virus software
Serial Dependent	No

ATM Software (SFT0000002)

Description	ATM Software
Serial Dependent	No
Vendor Org	BIT LLC (VND0000005), 710 SW 34th Street

Fedline (SFT0000003)

Description	Fedline
Serial Dependent	No
Vendor Org	Fedline (VND0000044)

Interactive Voice Response Server Software (SFT0000004)

Description	Interactive Voice Response Server Software
Serial Dependent	No

MS Office 2000 (SFT0000005)

Description	MS Office 2000
Serial Dependent	No

Network Software (SFT0000006)

Description	Network Software
Serial Dependent	No

Payroll Processing Software (SFT0000007)

Description	Payroll Processing Software
Serial Dependent	No
Vendor Org	Payroll & HR Software Provider (VND0000079)

Software for PBX system (SFT0000008)

Description	Software for PBX system
Serial Dependent	No
Vendor Org	PBX Vendor (VND0000081)

System Software for core system (SFT0000009)

Description	System Software for core system
Serial Dependent	No
Vendor Org	FIS (VND0000025), Attn: Accounting Department

7/23/2010

Windows 7 (SFT0000010)

Description	Current windows operation system.
Software Type	PC Basics
Category	Software
Serial Dependent	No
Cost of Software	300
Additional Detail	Contingent on hardware purchase.

Internet Explorer (SFT0000011)

Description	Current browser application.
Software Type	PC Basics
Category	Software
Serial Dependent	No
Cost of Software	0
Additional Detail	Hardware purchase, Windows 7 installation.

ShoreTel System (SFT0000012)

Description	Version 9
Software Type	Communications
Category	Software
Serial Dependent	No
Cost of Software	0
Additional Detail	Telephone system hardware replacement timing with existing licenses.

Personal Call (SFT0000013)

Description	Version 9
Software Type	Communication
Category	Software
Serial Dependent	No
Cost of Software	0
Additional Detail	PC recovery timing with existing licenses.

Circuit Details

7/23/2010

Report Description:

This report lists all Equipment characteristics of each circuit organized by circuit number.

Broadstripe Cable (TEL0000008)

Circuit #/ID	Broadstripe Cable
Dedicated	Yes
Destination Number	WCI T1
Closet Number	2nd Floor
Vendor Org	Broadstripe Cable (VND0000003), 10435 Martin Luther King Junior Way South

Cedar (TEL0000005)

Circuit #/ID	4.UHXX.237481..PN 206 T32-6563
Dedicated	Yes
Network Location	Admin
Receiving Location	Cedar
Destination Number	DSL
Closet Number	2nd Floor
Vendor Org	Qwest (VND0000066), PO Box 91155
Service Type	T1

Port Angeles (TEL0000003)

Circuit #/ID	4.UHXX.237482..PN 206 T32-8926
Dedicated	Yes
Network Location	Admin
Receiving Location	Port Angeles
Destination Number	DSL
Closet Number	2nd Floor
Vendor Org	Qwest (VND0000066), PO Box 91155
Service Type	T1

Sequim (TEL0000002)

Circuit #/ID	4.UHXX.237483..PN 206 T32-9442
Dedicated	Yes
Network Location	Admin
Receiving Location	Sequim
Destination Number	DSL
Closet Number	2nd Floor
Vendor Org	Qwest (VND0000066), PO Box 91155
Service Type	T1
Additional Detail	Re-route via backup.
